

Mazuri® Waterfowl Maintenance Diet

(Available at www.mazuri.com or through a Mazuri® retailer)

Formula Code - 5642

Description

Mazuri® Waterfowl Maintenance Diet is designed for non-breeding, mature, fully-feathered waterfowl to provide quality nutrition for ducks, geese, swans, and other waterfowl species.

Features and Benefits

- **Nutritionally complete and balanced** – No supplements needed
- **Floating diet** – For natural feeding behavior in the water, helps limit water contamination and minimizes product waste
- **Balanced nutrition to energy ratio** - To help maintain condition
- **No added artificial colors, flavors or preservatives**
- **Sustainable fish meal source**

Product Form

Extruded feed: 3/8" diameter x 3/16" length.

- 12 lb. resealable poly bag
- 50 lb. net weight paper sack

Ingredients

Ground Corn, Wheat Middlings, Ground Oats, Dehulled Soybean Meal, Calcium Carbonate, Fish Meal, Soybean Oil, Dicalcium Phosphate, Salt, Biotin, Brewers Dried Yeast, Vitamin D3 Supplement, Menadione Sodium Bisulfite Complex (Vitamin K), Preserved with Mixed Tocopherols, Nicotinic Acid, Rosemary Extract, d-Alpha Tocopheryl Acetate (Vitamin E), Vitamin A Acetate, Choline Chloride, Citric Acid (a Preservative), Manganous Oxide, Zinc Oxide, Calcium Pantothenate, Folic Acid, Copper Sulfate, DL-Methionine, Vitamin B12 Supplement, Riboflavin Supplement, L-Lysine, Calcium Iodate, Sodium Selenite.

Feeding Directions

- Feed free choice to non-breeding, mature, fully-feathered birds.
- Adult birds should eat approximately ¼ cup (17 g) per lb (0.45 kg) of body weight daily, but amounts will vary based on species, size, and activity level.
- To encourage natural feeding behavior, scatter food directly on the water, where it will float.
 - To prevent the diet from floating away, offer feed in a shallow trough of water.
- For added convenience, this diet may also be offered dry.
- It is always good practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

Storage Conditions

For best results, store contents of open bag in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in performance loss, illness or death. Use within 1 year of bag manufacturing.
