

# Purina® Layena® Crumbles

Purina® Layena® layer feed provides all 38 nutrients laying hens need once they're 18 weeks old and laying eggs. Feeding Purina® Layena® to your hens provides you with delicious and nutritious eggs that your family and community can enjoy. The exclusive Purina® **Oyster Strong® System** strengthens eggshells with added calcium from oyster shells, Vitamin D and manganese. Our pellets are wholesome and balanced, supporting reproductive and overall health with no need to supplement.

Purina® Layena® Layer Feed is available in pellets or **crumbles**. Pellets and crumbles include the same nutrition, so choosing between the two is a personal preference. Pellets are a great way to limit feed waste.

## Features & Benefits

### Added Marigold Extract

For rich yellow yolks — A high level of xanthophyll, a coloring agent derived from marigolds, produces deep yellow egg yolks

### Balanced and Complete Formula

- Freshly-ground grains from North American Farms
- Calcium, manganese and trace minerals for strong shells
- Fortified with vitamins, minerals and essential amino acids

### Calcium, Manganese and Trace Minerals

Strong shells

### Essential Amino Acids

Enhanced with lysine and methionine to give birds the nutrients they need to produce plenty of wholesome and delicious eggs. Also promotes beautiful feathering.

### Key Levels of Vitamin A, D, E

Strong reproduction and overall health — A high level of Vitamin A helps birds grow into healthy adult birds

### Prebiotics, Probiotics and Yeast

Supports immune and digestive health

### Research-Backed High Quality Formulation

Wholesome nutrition you can trust to provide the very best for your poultry

### Rich in Antioxidants and Optimized Levels of Vitamin E

Supports a healthy immune system — A high level of Vitamin E helps birds maintain a robust immune system

### Simple Ingredients

Recipe has:

- No artificial by-products or fillers added
- No artificial preservatives added
- No antibiotics or growth hormones added

### Superior Nutrition

Optimum nutrition for healthy birds and delicious eggs

### Wholesome Nutrition

Your assurance of quality – It's nutrition you can trust — our guarantee that this is the very best feed for your poultry

Phytase (A. Oryzae)	MIN	227 FYT/lb

## Feeding Directions

### Description

1. Feed Purina® Layena® free-choice as the sole ration to laying chickens (including backyard egg producers, small to medium breeds and fancy and exotic breeds) after 18 weeks of age and throughout the laying cycle.
2. Purina® Layena® can be fed to adult female chickens of laying age.
3. Always provide shelter and a constant supply of fresh, clean water.
4. Consumption will vary depending upon season of the year, nutritional needs of the animals and availability of other foods.

### Caution

Store in a dry, well-ventilated area free from rodents and insects. Never use moldy or insect-infested feed.
