BUCKEYE™ Nutrition products are formulated to be fed by weight. 1 qt of SAFE 'N EASY Senior weighs approximately 0.90 lb.

Provide clean, fresh water and free choice salt at all times. SAFE 'N EASY Senior is designed to be fed with good quality forage, pasture or hay. If dental issues prevent older horses/ponies from chewing and digesting long-stemmed hay properly, provide a forage alternative such as SAFE 'N EASY Complete by BUCKEYE Nutrition at a minimum of 1.5% of body weight per day to support healthy digestion.

If feeding less than recommended amounts per day, add 1 lb of GRO N WIN, GRO N WIN Alfa or Senior Balancer by BUCKEYE Nutrition for every 3 lb of SAFE N EASY Senior underfed. Contact BUCKEYE Nutrition for additional feeding recommendations.
