*Min-Max BUCKEYE[™] Nutrition products are formulated to be fed by weight. 1 qt of Senior Balancer weighs approximately 1.20 lb.

Provide clean, fresh water and free choice salt at all times.

Senior Balancer is designed to be fed with good quality forage, pasture or hay. If dental issues prevent senior horses/ponies from chewing and digesting long-stemmed hay properly, provide a forage alternative such as SAFE 'N EASY[™] Complete by BUCKEYE Nutrition at a minimum of 1.5% of body weight per day to support healthy digestion. Senior Balancer may also be soaked for ease of consumption for horses/ponies with dental concerns.

If additional calories are needed, do one of the following: Add ULTIMATE FINISH[™] 25, 40 or 100 by BUCKEYE Nutrition or Incorporate additional BUCKEYE Nutrition feeds.
