OUT-A-SIGHT!

Ignite Your Senses! Brilliant fluorescent flowers and sweet delicious fruits and berries are the result of the accumulation of just the right balance of nutrients taken up by the plant during its life cycle. Strawberry Fields® will feed your plants and is designed to pump up your blooms, fruits and berries with no hang-ups!

CONTAINER GARDENS

- Place enough potting soil into the container so that the root mass is positioned at the correct height
- Fill in around root mass up to 1 inch (2.5 cm) from top of pot
- Press gently to secure plant. Water thoroughly and let drain
- Do not pack too tightly. Add more if necessary with settling

HOUSEPLANTS

- Water thoroughly after planting. Feed regularly

TREES, SHRUBS AND ROSES

- Select a container 2-3 times the diameter of the plant's root mass and 3-6 inches (7.5-15 cm) deeper
- Place enough potting soil into the container so that the root mass is positioned at the correct height
- Secure plant in place while adding more potting soil around the root mass until the container is almost full
- Press firmly around perimeter of the plant and water thoroughly
