

# HAPPY FROG® POTTING SOIL

**BRING YOUR PLANTS TO LIFE!®**

- ◆ Ready-to-use for Indoor and Outdoor Plants
- ◆ Richly Amended Container Blend
- ◆ Contains Custom Blend of Soil Microbes

Happy Frog® Potting Soil is amended with soil microbes. These little guys help improve root efficiency and encourage nutrient uptake. That's why we never steam sterilize our soils.

Our craftsmanship shows in the finely-screened aged forest products, bat guano and earthworm castings you'll find in our soil mixes. Happy Frog® Potting Soil can help your plants thrive.

#### CONTAINER GARDENS

- Fill container with soil 1 inch (2.5 cm) below top edge of the pot
- Water thoroughly after planting
- For best results, feed your plants with FoxFarm fertilizer products during growth and bloom seasons

#### HOUSEPLANTS

- Water thoroughly after planting
- For best results, feed with Grow Big® Liquid Plant Food

#### ESTABLISHED CONTAINER GARDENS

- Top dress a 3-inch (7.5 cm) layer of potting soil around existing plants and carefully work into the soil. Water thoroughly

#### TREES, SHRUBS AND ROSES

- Select a container 2–3 times the diameter of the plant's root mass and 3–6 inches (7.5–15 cm) deeper
- Place enough potting soil into the container so that the root mass is positioned at the correct height
- Secure plant in place while adding more potting soil around the root mass until the container is almost full
- Press firmly around perimeter of the plant and water thoroughly
- Do not pack too tightly. Fill container to the top and water again
- Use FoxFarm fertilizers and liquid plant food concentrates in conjunction with our soil mixes
